SUMMARY

I am Ayush Patwal, a dedicated and enthusiastic BCA student at Bhagwant Global University. I have a strong foundation in both frontend and backend development, with hands-on experience building responsive and dynamic web applications. My skill set includes modern technologies across the full stack, and I am passionate about creating user-friendly digital solutions while continuously expanding my technical expertise.

PROJECTS

Vegcart: E-commers webside , Stripe API

[\[https://vegcart-seven.vercel.app\]](https://vegcart-seven.vercel.app)

- Developed a full-stack grocery e-commerce app with Stripe payment integration and Cash on Delivery (COD) support.
- Implemented secure user authentication, dynamic cart system, and order tracking.
- Built a responsive frontend using React and Tailwind CSS, and a scalable backend with Node.js and Express.
- Included an admin panel for product and order management.

Tech Stack: MERN Stack, Google Gemini API

[\[https://ayushdocs.vercel.app/\]](https://ayushdocs.vercel.app/)

- Developed a full-stack blog platform with Google Gemini integration to help users generate blog content using AI.
- Implemented JWT-based user authentication, rich text editing, and blog categorization.
- Created a responsive admin dashboard to manage users, blogs, and comments with approval features.
- Designed a clean UI using React and Tailwind CSS, and built scalable backend APIs with Node.js and MongoDB.
